# Project C - Security Review (Hybrid PDF)

This report covers the security review carried out before the first production release. Page 1 is typed text. Page 2 is a scanned appendix signed by the reviewer.

## Findings summary

Eleven findings were raised: 1 high, 4 medium and 6 low. The high finding concerned tenant isolation in the refund endpoint and is described in the appendix. All medium findings were closed before release.

APPENDIX A - SCANNED

High finding H-1: tenant isolation bypass in refund endpoint. Fixed in build 4.2.1.

Reviewer sign-off: M. Okafor

| Finding | Severity | Status |
|---|---|---|
| H-1 | High | Closed |
| M-3 | Medium | Closed |
| L-6 | Low | Open |
